Declaration Regarding the Central Election Commission's Refusal to Settle the Grievances of the Candidates for Moscow City Duma Deputies

The public demonstration of the failure to observe the principle of political neutrality in the work of election commissions and violation of the principle of equality towards the candidates with different political programs on the part of the country's main election commission will lead to complete devaluation of the institute of elections for the Russian society.

Results of the nomination and registration of candidates for the 8 September, 2019 elections to the representative bodies of state power and local government bodies

This year's elections of deputies to the representative bodies of state and local government bodies demonstrate Russia's deepening political crisis. Electoral procedures are increasingly replaced with repressive actions of security agencies aimed at suppressing the opposition.
